She would like to thank her family, Geneva, and Hillary for being there to support her during this fantastic time.

Director's Note: "For there is nothing either good or bad but thinking makes it so" is quote from William Shakespeare's *Hamlet*. This is one of my favorite quotes and those that know me, including my students, know that I draw inspiration from the wisdom in the words of others. This Shakespearean quote speaks to me in the way that is lays before us that situations can be seen in so many ways, it's really the way we think about something that determines an outcome or moves us to form an opinion or feeling. Something we've been working on in my theatre classes this year is having little fail-a-brations because sometimes things don't goes as planned and we make mistakes; if we celebrate what we can learn from these situations or events, then we are always growing and learning. When you watch this play, you'll see that there are many failures along the way and most are not ones you should celebrate….but for a few characters, you'll watch them overcome their own thoughts to rise above their own self-doubt and perhaps past mistakes to unite their people. This play has been a gift as I've watched my students conquer a Shakespearean mountain. There's no other way to say it other than to say that this play is hard. The words are challenging, the character motivations are confusing, and the topics explore themes that are not every day lived experiences especially for high school students. The cast has worked incredibly hard throughout the rehearsal process to take on understanding the words and dynamics of the play and to learn safe stage combat along with so many other things. We are grateful to our tech and backstage crew members for joining us to bring all of the moving pieces and parts together during our final week of production. Just like the characters in the play fighting for their country, we have worked as an incredible team to share this show with you our audience. Thank you to all of the students who have pulled double and triple duty in helping out with production needs and even during the show; when not on stage, many of our lead actors are backstage operating the battens. Thank to you our management team for being there every step of the way. Thank you to Carson Stover for helping backstage. Thank you to Mr. Gilyana for taking our production headshots. Thank you to my father, Mr. Fixel, for spending many hours working on the what I thought were little things for our set. Thank you to my mom, Mrs. Fixel, for arranging for being my secretary and making the calls to help is get our curtain fixed in addition to arranging our cast party. And to our audience, thank you for joining us tonight to celebrate the hard work of our dedicated cast and crew. We are grateful to have you here! ~*Leia Fixel,* Creekside
