

Liberty Pines Academy

Assessment Policy

4th Grade
2017-2018

Our goal at Liberty Pines Academy is to ensure that every student is successful at meeting the standards set for their grade level. To ensure this success, the following policies were developed. These policies allow for every student to have the opportunity for success if they were unsuccessful on their first attempt.

Due to the fact that the needs of our study body vary, we have developed different policies based on the grade level of the students.

The goal of the policy is still the same: to ensure mastery of the standards, but is adjusted based on the grade level and needs of our students.

The 4th grade Assessment Policy is as follows:

- Students scoring 69% or below will be eligible for retesting.
- Students must complete the retesting contract for their assessment to be eligible.
- Students must complete a review of the material before retest.
- The highest grade entered in the grade book will be a 70% after retesting, while the lowest summative grade entered is a 50%.
- Students can only retest once.
- Only specific assessments qualify for resting.
- All retesting must occur in the quarter in which the original assessment was given.

Please keep this Assessment Policy throughout the year to serve as a reminder of our desire to ensure all students are successful at meeting the standards.
