Study Island Review Guide

I've zeroed everyone out on Study Island, so you are set to go. Here is the deal so no one is confused.

For each section (19 sections for Honors Bio and 16 for AP), you need to do a minimum of 10 questions AND get at least 70% correct.

Each section will be worth two points, so this will count as a grade out of 38 for Honors and 32 for AP.

For each section that you do 10 questions AND get at least 70% correct, you will get two points.

If you don't do 10 you will get no points.

If you do 10 and get less than 70% correct, you will get 1 point.

If after 10 questions you don't have 70%, you can do additional questions to try to raise your score to at least 70%. Therefore, it is smart to choose to start with a high number of questions instead of the 10 they automatically start you with.

The smart money says you might want to go over the short review by clicking on the "lesson" link before you start answering the questions to give yourself a better chance of getting at least 70%.

EXTRA CREDIT: You can get extra credit of UP TO 5% of your 4th quarter grade by doing extra questions. Most sections have 20 questions or more, but some may have 15 or so. You will get a full 5% extra credit if you do at least 20 questions (or 15 if that is all a section has) AND get at least 70% correct. If you do more than the required 10 but less than 20 you will get some portion of the 5% extra credit.

I suggest you make yourself a schedule and stick to it instead of letting it go until the end. Come ask about anything you encounter that you still don't quite understand. The end is near; do your best!
