February Topic: Self Care

We often find gifted students do not feel they need to take care of themselves when they are immersed in their school and extracurricular lives. Encourage your student to make an appointment with themselves to take care of their mental health. I have a variety of ways to suggest such as guided meditation, journaling, and doodling, along with many others!

HOUSE KEEPING:

HELP GROW OUR RESOURCES: *The items on this list will be used as a part of my instruction of gifted students. We work on both social/emotional lessons, as well as problem-solving/logic/reasoning activities. Any games, books, or supplies purchased from this list will be used for these purposes. Thank you for your contributions!! [CLICK HERE](#)*

As always, I am here to support you and your child, if ever you have any questions or concerns, please do not hesitate to reach out!

Kindly,

Jaclyn Racano
