

Weekly Newsletter: Nov. 26-30, 2018

We are halfway through the second quarter. Please make sure you are checking HAC regularly! The next few weeks before winter break will be busy- we will complete another math unit and a novel study 😊 If you haven't signed up for our winter rotations and are able to donate either supplies or your time, please use the sign-up link sent through dojo! Thank you for all you do 😊

This Week We Are Learning

ELA: Text Structure: The next two weeks we will look at text structure found in informational texts. Students will learn to use key words to determine the structure of a given text.

Math: Multiplicative Comparisons: This week we will start our next math unit. This unit covers a few standards including multiplicative comparisons, algebraic expressions and unit conversions. Our first topic will be multiplicative comparisons.

Science: Forms of Energy: This week we will wrap up our energy unit. Students have learned about different forms of energy, how energy can be transferred and changed. A study guide will come home Monday and the test will be on Friday.

Social Studies: Why did Ponce de Leon found Saint Augustine?: This week we will wrap up our DBQ with our final essays!

Upcoming Important Dates

November 26: Hawk Buck Treat in Cafeteria (2 hawk bucks)

November 26: Jim Sawgrass In-school field trip

November 30: Forms of Energy Science Test

Weekly Homework

- Science Study Guide (please send to school each day as we will go over at school as well)
- Reading Log
- Vocab Packet #8 due 11/30, Quiz 11/30
- 3 pages of math

Are you interested in additional learning resources for at home learning and practice? IXL is a great resource that is available to every student in our class. For each topic being taught in math, there are a series of lettered and numbered tasks to complete. These test style questions provide students with extra practice and are an excellent way to study and prepare for upcoming tests and quizzes.
