

# Weekly Newsletter: February 18-22, 2019

This week we are looking at ordering decimals on number lines, moon phases and integrating information from two sources! We are nearing the end of the third quarter- where is the year going?! Spring break is right around the corner, and this time of year brings some more spirited behavior- please make sure you are checking dojo regularly 😊

## This Week We Are Learning

### ELA: Integrating Information from two sources

This week students will learn how to integrate information from two sources when reading and writing. This will prove useful as we begin drafting our second DBQ essays in social studies!

### Math: decimals

We are well into our decimal unit and will focus on comparing decimals this week. Our unit test will be on Wednesday, 2/27. A study guide will come home on Friday, 2/22. Students can also practice using IXL.

### Science: Sun, Moon and Space

This week we will look more closely at the phases of the moon- students should be filling in their moon journals each night to track the phases of the moon. Anticipated test date for this unit: March 13-14.

### Social Studies: The Seminole Wars DBQ

We will begin drafting our essays at the end of this week and students will be expected to turn in their final essays next week 😊

## Upcoming Important Dates

**February 18: President's Day: No school**

**February 23: VRA Festival of the Arts**

**February 27: Math Decimal Unit Test**

## Weekly Homework

- 3 pages of math
- 3 nights of reading log

### Additional learning opportunities:

- IXL Bingo sheets were distributed to students on 2/5- this can be used to target key skills and review previously taught material
