

Weekly Newsletter: March 4-8, 2019

We are just two short weeks away from spring break. As we wrap up our third quarter, students will be completing the angles math unit as well as the science unit on space.

This Week We Are Learning

ELA: Summarizing Fiction Texts

We will wrap up the third quarter with a two-week unit on summarizing fictional texts.

Math: Angles

Students will spend the next two weeks studying angles. We will also learn how to use protractors to measure and draw angles. We will take a unit test on Thursday, March 14.

Science: Sun, Moon and Space

This week we will wrap up our unit on space. A study guide will come home on Monday and we will work through several review activities including a kahoot game before our unit test on Friday ☺

Social Studies: Seminoles in Florida

Students submitted their final drafts of the Seminole War DBQ last week.

Upcoming Important Dates

March 8: Science Unit Test: Moon and Constellations

March 14: Math Unit Test

Weekly Homework

- 4 pages of math
- Small writing prompt

Additional learning opportunities:

- IXL Bingo sheets were distributed to students on 2/5- this can be used to target key skills and review previously taught material
