

AP Statistics: Textbook Website for Online Quizzes

As we proceed through the course, you may wish to use some additional resources to assist you in your studies and preparation for the AP Exam.

You may wish to bookmark our textbook companion site as additional tools to help you with your understanding of statistics.

You may log in to the text companion site to take an online quiz for each chapter. Your score will be emailed directly to me upon completion of this quiz. Please copy one page of your quiz and bring it to me in case for some reason I do not receive the email.

See below for instructions for registration:

Registering for Student Access:

In order to take online quizzes, download datasets, view statistical applets, etc. you'll have to register on The Practice of Statistics (5th edition) Companion website.

To do so...Go to: <http://bcs.whfreeman.com/tps5e>

On the Home page, open "Chapter 1 Online Quizzes." Enter your email address where it says "New Student?"

Fill in your information & create a password. (be sure to remember it!)

De-select the box in order to not receive product updates.

Carefully enter my email in "Instructor Email" when it prompts you to do so (it will do this when you take a quiz) Elisa.West@stjohns.k12.fl.us

You should now have "Basic Student Access". This allows you to take online quizzes, download datasets, view applets, etc. We will be taking a number of quizzes on this website, so you may want to bookmark it.

Taking an Online Quiz:

To take an online quiz, you'll have to log in using your email address and password. Make sure my email address is correct in the instructor email field.

Choose the chapter, take the quiz, and click "submit". You will see your results immediately along with a description of the correct answers if you happened to miss any. Once you hit submit, your score, start/finish time, etc. are emailed to me.

You will receive **5 points extra credit!**
