

Name _____

Another Look! Find $83 - 35$.

How many tens and ones do you need to subtract?

First place 83 on an open number line. Then count back 3 tens and 5 ones to subtract 35.

So, $83 - 35 = 48$.

Additional Practice 5-2
Count Back to Subtract on a Number Line

HOME ACTIVITY Tell your child a subtraction story for $36 - 15$. Have your child draw an open number line and use it to solve the problem.

Use an open number line to find each difference.

1. $95 - 23 =$ _____

2. $30 - 15 =$ _____

Represent Use an open number line to solve each problem.

3. $87 - 23 =$ _____

4. $54 - 19 =$ _____

5. Joe has 43 grapes. He gives 17 grapes to Dee. How many grapes does Joe have left?

_____ grapes
