

Homework Grading

Homework is assigned on the Algebra Nation website. Due dates will be posted in class and on the Schoology website.

You earn homework points by:

- Watching Algebra Nation videos – 5 points per section
- Completing the Algebra Nation workbook by the due date – 5 points per section
- Completing “Test Yourself” – 10 points per unit

The total points will be different for each unit. Points will depend on the number of sections and videos in the unit. You will lose points if the workbook or videos are not completed on time.

Video watching and “Test Yourself” results will be checked via the teacher’s account. Late credit for workbook pages will only be given after verifying that the student has watched the video, as well.

It is recommended that you do not wait until the last minute and report any technical issues immediately.
