FIELD STUDIES

St. Johns County Schools offer field studies to students in order to enrich their educational experience. Each field study is on the St. Johns County School District's Approved Field Study list. In addition, each field study is reviewed and approved by Administration at each school. Adult supervision and transportation are provided for each field study. Minimal, non-refundable fees are charged to students to cover basic costs (e.g., transportation and admission). Field Study transportation costs are estimated. If field study costs are less than estimated, excess funds remain in your child's grade level account for other classroom activities. Information, including dates and descriptions of all field studies, will be provided at the appropriate time(s) throughout the school year.

I give permission for my child to take part in all school sponsored field studies. I understand I will sign a permission slip for each field study in which my child participates and agree that funds remaining from field studies may be used for other classroom purposes.

Student name: _____

Teacher: _____ Grade: _____

Parent Signature: _____

Date: _____

Please return to your child's teacher by Friday, October 13, 2017
