

## **LPA Assessment Policy**

Our goal at Liberty Pines Academy is to ensure that every student is successful at meeting the standards set for their grade level. To ensure this success, the following policies were developed. These policies allow for every student to have the opportunity for success if they were unsuccessful on their first attempt.

Due to the fact that the needs of our student body vary, we have developed three different policies based on the grade level of the students. The goal of the policies is still the same: to ensure mastery of the standards, but is adjusted based on the grade level and needs of our students.

The grades are broken down as follows:

- Kindergarten through Second
- Third through Fifth
- Six through Eighth

### **Kindergarten through Second**

- Students not scoring an “M” on their assessment will be eligible for retesting.
- The students will be retaught and retested on the topic throughout the year.
- Student’s grade will be adjusted based on the higher of the original assessment or the retest assessment.

### **Third through Fifth**

- Students scoring 69% or below will be eligible for retesting.
- Students must complete the retesting contract attached to their assessment to be eligible.
- Students must complete a review of the material before retest.
- The highest grade entered in the grade book will be a 70% after retesting.
- Students can only retest once.
- Only specific assessments qualify for retesting.
- All retesting must take place within one week of the original assessment and must occur in the quarter in which the original assessment was given.

### **Sixth through Eighth**

- Students scoring 69% or below will be eligible for retesting.
- Students are responsible for requesting a retest by the means of a completed retesting contract.
- All retesting must take place within one week of the original assessment and must occur in the quarter in which the original assessment was given.
- Students must complete a review of the material before retest.
- The highest grade entered in the grade book will be a 70% after retesting.
- Students can only retest once.
- Only specific assessments qualify for retesting.
