7th Grade Advanced Math

We will expand our understanding of algebraic equations, functions, and graphic representations. We will also work with geometric formulas and calculating statistics.

7th Grade Standard Math

We will deepen our knowledge and increase our skill levels in integers, rational numbers, algebra, and proportionality.

*This is a 7th grade course. If you are a 6th grader taking this course, you are expected to meet all 7th grade expectations and requirements, including taking the 7th grade math FSA in May.

We have read and discussed this syllabus.

Class Assignments and Homework

Class assignments and home practice are displayed on the agenda board and updated on Schoology on a weekly basis. You are expected and given time to record them in your planners the first day of the week. Not having your planner is not an excuse for missing or incomplete assignments/home practice. Every problem should be attempted on assignments and home practice to receive credit; If any problems are blank it will be marked as incomplete. **All assignments and home practice must be completed in pencil.** All graphs must be completed on graph paper.

Retesting Policy

If you score less than a 85% on a summative assessment, you are eligible to re-take the test to earn up to 85%. You are responsible for getting a Math Error Analysis Sheet (available in your math classroom) and additional practice if needed, completing them thoroughly, and arranging a time to re-take the test with your math teacher.

Assignments and Grading

Policies

Course Syllabus | 2019-2020

Late/make-up work policy

The expectation is that you submit all assignments on time. Late Assignments will have a 10% point deduction for each day they are late. If you do not turn an assignment in, a zero will be recorded in the gradebook.

If you are absent, it is your responsibility to follow procedures to ensure that you obtain your assignments. You are given a day for each absence to make up work.

Technological issues do not excuse you from completing your work.

Other policies

- You may have water in the Classroom in a clear bottle.
- Please wait for an appropriate time to use the restroom (not during instruction)
- Students must use their planner (with teacher initials) as a hall pass.
- Come prepared to class everyday with ALL materials and a positive attitude.
- Arrive to class on time. If you are late, you will receive a verbal warning. If you are late more than 3 times in one quarter, you will be assigned lunch detention.
- Academic dishonesty (cheating) on assignments or tests will not be tolerated. You are responsible for your own learning. Cheating will result in the test being discarded, a parent conference, and a referral to the dean.
- Show respect to your school, teachers, and classmates.

Assignment/Homework Rubric

- ✓ Did you complete every problem?
- ✓ Did you use a pencil?
- ✓ Did you show all your steps in solving the problems?
- ✓ Is it neat, organized, and on time?

Curriculum

Course Syllabus - Advanced | 2019-2020

The course units are outlined below.

This is per the St. Johns County School District Mathematics Department. Please note that this serves as a guide, and the timing may be shifted slightly if necessary.

1ST QUARTER	2ND QUARTER
<ul style="list-style-type: none">• Real Numbers• Equations and Inequalities• Linear Equations	<ul style="list-style-type: none">• Functions• Bivariate Data• Systems of Equations
3RD QUARTER	4TH QUARTER
<ul style="list-style-type: none">• Congruence and Similarity• Pythagorean Theorem• Geometry• Surface Area	<ul style="list-style-type: none">• Sampling and Populations (Statistics)• Probability• Course Review

I am looking forward to a productive and fun year with you! 😊
