for week of:
8/16-8/20

Weekly Preview

Math: Students will be reviewing whole number and decimal place value. We will also review the times ten and 1/10th rule. This will lead us into learning about exponents.

Science: Students will be completing various activities to learn how science is all around them. Students will have a lab involving observations to be completed at home with a baby lima bean seed.

ELA: Students will complete a Multiple Intelligence Questionnaire, a personal narrative, and decorating their Writers Notebook to get to know each other. Send in 1-2 pictures from this summer, and possible other pictures for their Writers Notebook.
