for Week of:
10/11-10/15

Math: Students will begin a new unit on adding and subtracting decimals. We will learn a few strategies and use an escape room to practice what we have learned.

Science: Students will start a new science unit, Property of Matter. Students will learn more about the properties of matter by studying rocks. Then we will work on states of matter. On Friday, we will make homemade ice cream to demonstrate how liquids can turn into solids.

ELA: Students will continue to complete two Achieve articles each week due by 8PM on Thursday night. We will be taking a break from Wordly Wise until Oct 25th. The next novel that we will be reading is one of my all time favorite novels, The Little Prince

SS: Students will take the Unit 2 open book quiz and work on small group projects.

Homework

	Mon.	Tues.	Wed.	Thurs.	Fri.
Math				Study Math Test and Math 4Today Quiz	Math Test Math 4Today Test
Science
