## Gifted Games for Home

**MOUSE Trap** is a simple but very addictive puzzle game. The goal is to help the mouse escape from the trap and find the exit in maze. This can be achieved by sliding blocks out of the mouse's way. Players must continue to be challenged to manipulate the trap to catch the mouse. Lots of fun for all ages!

Hello Parents! Cant believe that we are approaching the end of the first quarter already! It has been a blast seeing all the elementary kiddos and getting to spend time with them teaching about mindset and perseverance. Ms. Arnold and I have also enjoyed our lunch bunches over at Murray Middle School with our 6-8th graders

and we are busy underway with consult meetings at the high school ! **Perseverance and mindset will be our overarching concept we will come back to throughout this semester for all grade levels.**

*I am so appreciative of my time with your kids and I am looking forward to seeing them! Please do not hesitate to reach out to me if you have any concerns. High School parents please encourage your child to use the SIGN UP on their Schoology Page to make an appointment to come see me, if they have not already done so!*

Thank you– Jaci Racano 904-547-8687
